Good Morning,

Attached are the documents presented at the Planning meeting for your approval and signature. Both can be signed using an Adobe digital signature however, if you are not able to access that method, feel free to sign with pen and scan the first page of each document back to me for further distribution. Thank you for your time and assistance in this matter and please let me know if you have any questions.

Very Respectfully,

Marty,

After I sent the document to you for approval, I realized that the Adobe permissions to create a digital signature might not work on all platforms. If it is easier for you, feel free to print and sign the first page in the designated spot and then scan that same page back to me so I can forward to the remaining Unified Command members. Thanks!!

Very Respectfully,
